OCEAN ENGINEERING

VOLUME 25, 1998

CONTENTS & AUTHOR INDEX

Editors-in-Chief
MICHAEL E. McCORMICK RAMESWAR BHATTACHARYYA

PERGAMON

Ocean Engineering An International Journal

Editors-in-Chief

Michael E. McCormick
Department of Civil Engineering
G. W. C. Whiting School of Engineering
The Johns Hopkins University
Baltimore, MD 21218
U.S.A.

Rameswar Bhattacharyya
Department of Naval Systems Engineering
U.S. Naval Academy
Annapolis, Maryland 21402
U.S.A.

Editor Emeritus

A. A. Johnson (U.S.A.)

Associate Editors Emeriti

J. P. Hooft (The Netherlands)
P. A. A. Laura (Argentina)
F. H. Middleton (U.S.A.)
J. Ploeg (Canada)
L. S. Slotta (U.S.A.)

Associate Editors

J. A. Alaez
Canal de Experiencias Hidrodinamicas
Madrid, Spain

P. Bogdanov
Bulgarian Ship Hydrodynamics Center
Varna, Bulgaria

J.-W. Chen
Department of Civil Engineering
National Cheng Kung University
Tainan, Taiwan 70101
Republic of China

L. J. Doctors
Department of Naval Architecture
School of Mechanical and Manufacturing Engineering
University of New South Wales
Kensington NSW 2033
Australia

A. F. de O. Falcao
Department of Mechanical Engineering
Instituto Superior Tecnico
P-1096 Lisboa Codex, Portugal

M.-X. Gu
China Ship Scientific Research Center (CSSRC)
Wuxi, Jiangsu
People's Republic of China

G. E. Hearn
Department of Marine Technology
University of Newcastie
Newcastle upon Tyne NE1 7RU
U.K.

N. E. Jeffrey
Faculty of Engineering and Applied Science
Memorial University of Newfoundland
St John's, Newfoundland
Canada, A1B 3X5

H. Keil
Institut für Schiffbau der Universität Hamburg
Lämmersieth 90
2000 Hamburg 60, Germany

L. Kobylinski
Ship Research Institute
Gdansk Technical University
Gdansk, Poland

J. Leonard
Department of Civil Engineering
Box U-37, 191 Auditorium Rd
University of Connecticut
Storrs, CT 06269-3037, U.S.A.

A. W. Lewis
Department of Civil Engineering
University College of Cork
Cork, Ireland

S. Marsich
Genoa University
Facolta Di Ingeneria
Genoa, Italy

M. Ohkusu
Research Institute for Applied Mechanics
Kyushu University
Kasuga-Koen 6
Kasuga, Fukuoka 816
Japan

P. T. Pedersen
Technical University of Denmark
Department of Ocean Engineering
DK-2800 Lyngby, Denmark

J. A. Pinkster
Delft University of Technology
Ship Hydromechanics Laboratory
Mekelweg 2
NL-2628 CD Delft
The Netherlands

R. J. Seymour
Institute of Marine Resources
Scripps Institution of Oceanography
La Jolla
CA 92093, U.S.A.

T. J. T. Whittaker
Department of Civil Engineering
Queen's University
Belfast, Northern Ireland

Periodicals postage paid at Rahway, New Jersey. *Ocean Engineering* (ISSN 0029-8018) is published in ten issues per year in January, February, March, April, May, June, July, August, October and November by Elsevier Science Ltd, The Boulevard, Langford Lane, Kidlington, Oxford OX5 1GB, U.K. The annual subscription in the U.S.A. is $1167.00. *Ocean Engineering* is distributed in the U.S.A. by Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A. Postmaster: please send address corrections to *Ocean Engineering*, c/o Elsevier Science Regional Sales Office, Customer Support Department, 655 Avenue of the Americas, New York, NY 10010.

VOLUME CONTENTS

Number 1

V. L. Belenky, A. B. Degtyarev and A. V. Boukhanovsky	1	Probabilistic qualities of nonlinear stochastic rolling
S. A. Sannasiraj, V. Sundar and R. Sundaravadivelu	27	Mooring forces and motion responses of pontoon-type floating breakwaters
D.-S. Jeng	49	Wave-induced seabed response in a cross-anisotropic seabed in front of a breakwater: an analytical solution
T.-W. Hsu	69	Geometric characteristics of storm-beach profiles caused by inclined waves
S. K. Srivastava and C. Ganapathy	85	Experimental investigations on loop-manoeuvre of underwater towed cable-array system
	103	*Publications Received*

Numbers 2–3

M. Söylemez	105	Non-linear restoring forces of an offshore platform
J. Malarkey and A. G. Davies	119	Modelling wave-current interactions in rough turbulent bottom boundary layers
M. H. Kim, S. Muralidharan, S. T. Kee, R. P. Johnson and R. J. Seymour	143	Seakeeping performance of a containment boom section in random waves and currents
P. A. A. Laura, G. Elvira, M. Sánchez, H. C. Sanzi, D. Vega and S. Vera	173	Numerical experiments on dynamic stiffening of beams and plates
T. Kitano and H. Mase	183	New theoretical aspects of statistical properties of narrow-banded random waves

A. N. Williams and W. Li	195	Wave interaction with a semi-porous cylindrical breakwater mounted on a storage tank
V. Sundar and V. Ragu	221	Dynamic pressures and run-up on semicircular breakwaters due to random waves

Numbers 4–5

H. T. Wang and R. W. Jansen	243	Approximate evaluation of the distortion to the peak ocean wavelength and direction derived from SAR image spectra
I. R. Young	261	Observations of the spectra of hurricane generated waves
V. Sundar, V. Vengatesan, G. Anandkumar and A. Schlenkhoff	277	Hydrodynamic coefficients for inclined cylinders
C.-P. Tsai, J.-S. Wang and C. Lin	295	Downrush flow from waves on sloping seawalls
O. R. Rijken and J. M. Niedzwecki	309	Direct displacement measurements of submerged objects
H. Lin, S. C. S. Yim and O. Gottlieb	323	Experimental investigation of response stability and transition behaviour of a nonlinear ocean structural system
C. Itosu, M. Nakamura, Y. Chiba and S. Otake	345	The use of a water mass curtain to control fish behavior for marine ranching
		Technical Note
M. Söylemez	359	Motion response simulation of a twin-hulled semi-submersible

Number 6

O. Yilmaz and A. Incecik	385	Analytical solutions of the diffraction problem of a group of truncated vertical cylinders

L. Chen and J. Zhang	395	On interaction between intermediate-depth long waves and deep-water short waves
S. Sankaranarayanan, N. J. Shankar and H. F. Cheong	425	Three-dimensional finite difference model for transport of conservative pollutants
Y. Sun and J. W. Leonard	443	Dynamics of ocean cables with local low-tension regions
A. K. Basu	465	Periodic response to fluid loading of single-degree of freedom systems with stiffness nonlinearity
M. J. Tucker	481	The statistics of particle velocities and accelerations under waves with directional spread
H. A. Schäffer and P. A. Madsen	497	Discussion of "A formal derivation and numerical modelling of the improved Boussinesq equations for varying depth"

Number 7

R. S. Bisht and A. K. Jain	501	Wind and wave induced behaviour of offshore guyed tower platforms
R. E. Rossi, D. V. Bambill and P. A. A. Laura	521	Vibrations of a rectangular orthotropic plate with a free edge: a comparison of analytical and numerical results
I. Sahin and N. Okita	529	Flow around circular and noncircular cylinders by a low-order panel method
U.A. Korde	541	Active heave compensation on drill-ships in irregular waves
J.S. Bessonneau and D. Marichal	563	Study of the dynamics of submerged supple nets (applications to trawls)
		Technical Note
P. A. A. Laura, D. R. Avalos, H. A. Larondo and R. E. Rossi	585	Numerical experiments on the Rayleigh-Ritz method when applied to doubly connected plates in the case of free edge holes

		Technical Note
W. Hartono	591	A floating tied system for an offshore airport
		Technical Note
D. L. Kriebel	597	Nonlinear wave interaction with a vertical circular cylinder: wave forces
		Technical Note
S. Beji	607	Note on conservation equations for nonlinear surface waves
S. Beji and K. Nadaoka	615	Authors' reply to 'discussion of Schäffer and Madsen on "A formal derivation and numerical modelling of the improved Boussinesq equations for varying depth" (*Ocean Engineering,* **25** (1998) 497–500)'
	619	*News and Notices*

Number 8

M.-C. Huang and J.-Y. Chen	621	Wave direction analysis from data buoys
B.-F. Chen	639	Hybrid three-dimensional finite-difference and finite-element analysis of seismic wave induced fluid–structure interaction of a vertical cylinder
J. H. L. Kway, Y.-S. Loh and E.-S. Chan	657	Laboratory study of deep-water breaking waves
A. Kükner	677	A view on capsizing under direct and parametric wave excitation
A. Korobkin	687	Elastic response of catamaran wetdeck to liquid impact
B. Hamoudi and K. S. Varyani	715	Significant load and green water on deck of offshore units/vessels
	733	*News and Notices*

Number 9

S. R. Massel	735	The limiting wave height in wind-induced wave trains
R. Zhao and J. V. Aarsnes	753	Numerical and experimental studies of a floating and liquid-filled membrane structure in waves
J. Wu, Z. Wan and Y. Fang	767	Wave reflection by a vertical wall with a horizontal submerged porous plate
D. X. Zhu and M. Katory	781	A time-domain prediction method of ship motions
O. B. Augusto and A. Kawano	793	A mixed continuous and discrete nonlinear constrained algorithm for optimizing ship hull structural design
	813	*News and Notices*
	815	*Publication Received*

Number 10

B. P. Suneja and T. K. Datta	817	Active control of ALP with improved performance function
J. K. Paik, S. K. Kim and S. K. Lee	837	Probabilistic corrosion rate estimation model for longitudinal strength members of bulk carriers
S. Banfield and N. Casey	861	Evaluation of fibre rope properties for offshore mooring
V. Armenio	881	Dynamic loads on submerged bodies in a viscous numerical wave tank at small KC numbers
D. Myrhaug, O. H. Slaattelid and K. F. Lambrakos	907	Seabed shear stresses under random waves: predictions vs estimates from field measurements
	I	Volume 25 Contents and Author Index
